White label products

Design and packaging catalogue

White label products

With many years of experience in the IoT industry and more than one million products deployed, we know that no two IoT solutions are the same. To meet the exact needs of your company, we offer a wide range of white label IoT products.

You are offered numerous opportunities for customizing both the design and packaging of the products. In this way, your brand is easily added to the products. The MOQ for customized design and packaging is 3,000 units.

In order to customize the design and packaging, you are provided with a set of templates. When the design process is finished, you send us production-ready files, and you will have your products, ready for deployment.

Squid.link Gateway appearance

The Squid.link Gateway comes with a top label. The label can be customized with your brand color and logo. This means that the appearance of the gateway can be tailored to fit your business seamlessly.

Product labels

On each of the products, a label is added. Your logo is easily included in the area marked by the gray box. The model number, marked by the orange arrow, can be modified to fit your company. You can also add your company address to the product labels.

COMPANY LOGO
MOSZB-130
HW: 3 . 1 . 1
SN: 0200 0002 3000 00C F

Box label

On the packaging of the products, a box label is added. Your logo and address can be included in the area marked by the gray box. The part number, marked by the upper orange arrow, and the model number, marked by the lower orange arrow, can be customized. In addition to the box label, you can add an EAN label on the box.

COMPANY LOGO & ADDRESS

Placement of the product label   Placement of the box label   Placement of the box label on the Starter kit

Starter kit boxes

Our Starter kit provides you with a range of products and multiple possibilities, including customizing the design of the box. Your logo, slogans, and brand colors are easily printed on the box. The box comes with matt coating and magnet closure. Inside the box are foam and a white paper box for the power supply and installation manuals.

Sleeves and inner boxes

The individual packaging of the products includes a sleeve and a white inner box. The sleeves can be customized with your design. The material of the sleeves is white paper with matt coating.

Manuals
Show your brand colors

Installation manuals

With each of the products follows an installation manual. When designing your installation manuals, you will be provided with our manuals to use as inspiration for both the text and graphics. The installation manuals are printed on A4 size paper.
